

Understanding Your Natural Gas Bill

This is a sample bill only. The bill from your retailer may look slightly different.

SITE ID

The Site ID is a unique number that identifies a specific site to which ATCO Gas delivers natural gas. If your Site ID starts with the numbers 0001 or 0003, then ATCO Gas is your distribution utility.

ENERGY CHARGES

Your retailer's charges.

Cost of Gas

This charge covers the amount of natural gas that you used for the billing period. The price you pay is shown in dollars per gigajoule (GJ).

Administration Charge

This fee covers a retailer's costs for providing billing and account management.

DELIVERY CHARGES

Your distributor's charges.

Fixed Delivery Charge

To cover costs for building, operating and maintaining the distribution system that brings you natural gas.

Variable Delivery Charge

A charge based on the amount of energy that you use to cover costs for building, operating and maintaining the distribution system.

Rider

An approved charge or credit used to adjust delivery charges. More than one Rider may appear on the bill. [View current riders](#)

Municipal Franchise Fee

In some communities, this fee is collected on behalf of the local government for ATCO Gas to access municipal land. ATCO Gas passes this amount along to the municipality.

Carbon Levy

This is a fee ATCO Gas collects on behalf of the provincial government to encourage Albertans to be more energy efficient in their homes, businesses and communities. [Learn more](#)

METER READING

This shows the volume of natural gas used for the period. ATCO Gas is responsible for reading meters and sending that information to retailers so they can accurately bill consumers.

CONVERSION FACTOR

To convert the volume of natural gas into energy for billing, a conversion factor is used. The conversion factor is determined by ATCO Gas in accordance with Measurement Canada approved practices. [Learn more](#)
